SUMMARY

Data Specialist and Technical Developer with **5+ years** across data analysis, business intelligence, full-stack web applications and automated ETL pipelines. Builds end-to-end data systems: from aggregating large-scale operational records and star-schema **Power BI** models to production web platforms and automations that cut manual reporting time by up to **99%**.

EXPERIENCE

ATINO FASHION CO., LTD. – Hanoi, Vietnam **2024 – Present**

Full-Stack & Data Specialist

- Built a full-stack financial web app (**React**, **TypeScript**, **FastAPI**, **Supabase**) with interactive **P&L dashboards**, approval checking and real-time **Lark webhooks** that flag disbursement discrepancies and duplicate payment requests.
- Engineered automated cash-flow and P&L reporting pipelines (**Python**, **BigQuery**) delivering daily financial digests to Management and the Board via **Lark Suite**, cutting manual reporting time by **99%**.
- Built retail ETL pipelines (**Python** Polars/Pandas, **Dagster Cloud**, **BigQuery**) syncing **10M+ records/month** across Nhanh.vn ERP, Shopee, TikTok Shop, Facebook, Palexy and Lark Suite with **99.8%** reliability.
- Built daily-refresh **Power BI** dashboards and star-schema models across **50+ stores**, tracking P&L, gross margin and inventory turnover.

VWS JOINT STOCK COMPANY – Hanoi, Vietnam **2021 – 2024**

Technical Data Analyst | Information Technology Department

- Processed, audited and enforced data quality across **100M+ records** with **SQL** and Jupyter notebooks, reducing data discrepancy rates from **20% to under 2%**.
- Engineered automation and integration scripts (**Python**, **Google Apps Script**, **VBA**), raising data accuracy from **80% to 95%**; internal Python utilities improved team productivity by **35%**.

MOSVODOKANAL – Moscow, Russia **2018 – 2021**

Operations Analyst | Planning and Analytics Department

- Aggregated and analyzed **1B+ operational records** across **15+ service zones** with optimized **SQL**/**MySQL** queries.
- Built automated executive KPI dashboards and reporting pipelines in **SQL** and **Excel**, reducing turnaround time by **40%**.

PROJECTS

- **Atino Workspace Data Platform** – retail data integration: Dagster Cloud pipelines, BigQuery warehouse, headless Selenium extractors. Python · Dagster · BigQuery · Selenium
- **Atino Financial & Approval Platform** – retail accounting and multi-tier approval dashboard with an async FastAPI backend. React · TypeScript · FastAPI · Supabase
- **Atino Booking Web App** – live production booking platform (giacong.atino.vn). React · TypeScript · Node.js · Tailwind
- **BI Portfolio** – interactive Power BI dashboards: Uber Trips, Supply Chain & Sales, Lazada Sales; Excel Adidas sales; SQL case studies. Power BI · DAX · SQL · Excel

SKILLS

Data Analytics & BI	SQL (PostgreSQL, MySQL, DuckDB, BigQuery), Power BI (DAX, Star Schema, Power Query), Excel (Advanced Formulas, Pivot Tables, Power Pivot), Google Sheets
Data Engineering	Python (Pandas, Polars, DuckDB, Dagster, Selenium, PySpark), REST APIs, Google Apps Script, web scraping, headless automation
Full-Stack Development	TypeScript, JavaScript, React, Next.js, Vite, Tailwind CSS, FastAPI, Node.js, NestJS, Supabase (PostgreSQL, Auth), webhooks
Cloud & DevOps	Google Cloud Run, Cloud Storage, Docker, Git, GitHub Actions, Vercel, Railway, Cloudflare

EDUCATION

M.Sc. in Technical Economics · 2018 – 2020
Moscow State University (MGSU) · Major: Project Management · *Graduated with Honors*

B.Sc. in Technical Engineering · 2014 – 2018
Moscow State University (MGSU) · *Graduated with Honors*
